ABOUT ME

With an academic background in Environmental Engineering and a strong passion for sustainability, I am specialised in helping organisations in analysing, communicating and improving their sustainability performance. I am especially skilled in the use of Life Cycle Assessment and focused on how organization can better communicate and take action to achieve the UN SDGs. I like to create original solutions and I had the chance to take part and lead entrepreneurial activities. Thanks to these activities and to my international experience, I have learned and appreciated the value of working with people from different professional and cultural backgrounds.

EDUCATION

August 2016 – June 2018
MSc in Environmental Engineering

Focus: Environmental Management and Sustainability
Technical University of Denmark

March 2017 – June 2018
Climate-Kic Master Label Student

September 2014 – January 2015
BSc in Environmental Engineering (Erasmus)
Middle East Technical University

October 2012 – March 2016
BSc in Environmental Engineering
Padua University

CERTIFICATES

Copenhagen Sustainability Initiative
Climate-KIC Master label student
GRØN DYST Participant

PROFESSIONAL EXPERIENCE

September 2018 – Now
UNEP-DTU Partnership (Denmark)

Research Assistant

- Initiative for Climate Action Transparency
- Life Cycle Assessment and SDGs analysis
- Development of SDGs impact tool

January 2018 – June 2018
QSA (DTU) & UNEP-DTU Partnership (Denmark)

Master Thesis

- Assessment of the environmental, social and economic impacts of PV mini-grids in Kenya
- + Quantitative and qualitative assessment
- + Relation with high-level stakeholders

September 2017 – December 2017
Technical University of Denmark (DTU) (Denmark)

Teaching Assistant

- Life Cycle Assessment of Products and Systems
Sustainability in Management
- Supervision of projects; assignment preparation and correction
 - + Communicate clearly to different people
 - + Motivate and coordinate groups

February 2017 – June 2017
UNEP-DTU Partnership (Denmark)

Student Project

- Analysis of tools for private sector Climate Change Adaptation
- Development of a Climate Change Adaptation Tool
- + Climate Change effects on rural communities
- + Communicate clearly and in a proper manner to experts from every background

Jun 2015 – Sept 2015
Xylem Inc. (Italy)

ESH Intern

- Updating MSDS accordingly to REACH regulation
- General ESH activities
- + Environmental Management Systems
- + Manage own projects

RELEVANT PROJECTS

August 2017
The Journey – Creation of a Start-up
Climate-KIC Summer School

- Developing a start-up: sustainable packaging made of olive pits
- + Coordinate teamwork and lead the team
- + Pitch in front of investors
- + Communicate well in stressful situations

English: Fluent

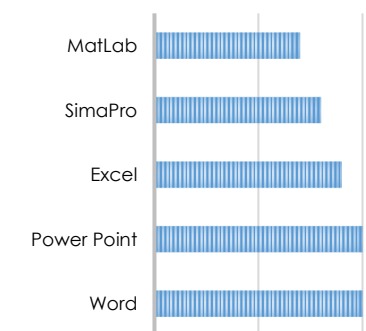

Italian: Native

Danish: Beginner

TECHNICAL SKILLS

IT SKILLS

ME IN REAL LIFE

I don't give up until the **job is done**. The **team** comes first. I like everyone in the team to feel **comfortable**. I like to help the team in splitting the task and **planning** the work. I am very ambitious and always set **high goals**. I love to **create new things!** If I **believe** in something, I make it real.
