Description

The implementation of CBIT project in Uganda began in 2018 and is now almost ending. The project has three components geared towards strengthening the capacity of Ugandan institutions to comply with the transparency requirements of the Paris Agreement, namely: strengthening institutional arrangements for robust MRV system; building capacity to collect, process, and feed data into the GHG emission inventory system; and testing and piloting the GHG emission inventory system and the MRV system.

The talks of this webinar will focus on the lessons learnt from the implementation of CBIT Uganda project, including results, challenges, recommendations, and sustainability strategy.

The webinar will be held in English.

List of Speakers

Speaker 1	Name	Bob Natifu
 <i>(Please attach high definition picture)</i>	Job Title	Climate Change Directorate Commissioner
	Organisation/ Company	The Uganda Climate Change Directorate
	LinkedIn	https://www.linkedin.com/in/bob-natifu-91a61841/
